NCS – Patch cable Cat.6A STP 26AWG

NCS Cat.6A STP 26AWG patch cables are high-quality cables that ensure secure and trouble-free data transmission. They feature halogen-free, low-smoke cable construction and high-quality gold-plated connectors. The standardized 26AWG cables impose no limitations on connection lengths.

The patch cables are equipped with molded strain reliefs that ensure the connection between the connector and the cable. All cables are individually tested and approved in accordance with EN 50173 & ISO/IEC 11801 for the transmission of all applications up to and including 10 Gigabit Ethernet (10GBase-T).

The product is approved for use in the NCS – Norwegian Cabling System.
