Fiber – OLTS, OTDR & Inspection		Optional	Optional

The modular Versiv family future-ready design supports up to TIA Cat 8 and ISO Class I/II, singlemode and multimode fiber loss and OTDR testing plus inspection. Advanced diagnostics instantly pinpoint the cause and location of cable faults in plain language. Both Versiv copper cable testers provide measurements to support advanced technologies, including Alien Crosstalk for NBASE-T and other applications, and Resistance Unbalance for Power over Ethernet (PoE).
